“Money is confusing... and school didn’t help.” – Every teen, ever.

Teens struggle with budgeting, saving, and understanding value

Financial topics feel boring, irrelevant, or too adult

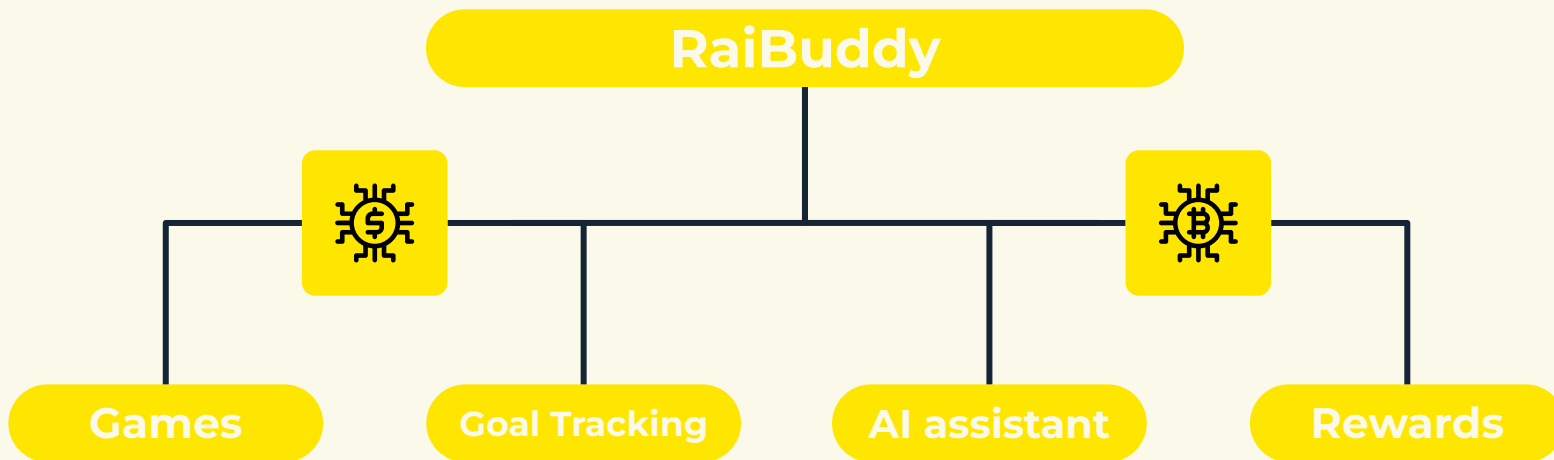

Impulse buying, social pressure, and lack of confidence = poor money habits

Our solution

“Not another boring finance app — this one talks back and gives coins.”

What Makes Us Stand Out

- **Highly interactive & attention-friendly**
- **Built with teen insights — not adult guesses**
- **Leaderboard, goals & instant feedback**
- **We didn't just build features — we built habits**

How It Works

savings goals

FOUREACH — 4 humans, 1 goal: making finance make sense.

- 2 Backend Engineers (APIs, Auth, .NET EF Core)
- 2 Frontend Wizards (Next.js, Tailwind, Motion UI)
- Shared braincell: AI, UX, and coffee-fueled debugging

Thank You!
